DISPARITIES IN INFANT MORTALITY

Zero to One documents the stories of five Kansas mothers who have lost their babies. The mothers share their experiences with the health care system in a series of topical discussions and Kansas physicians provide commentary.

Please join us for the premiere of this new video and curriculum series. Wine and cheese will be served.

5:30 - 7:30 pm

Kansas Leadership Center

325 E. Douglas Ave

Wichita, KS 67202

In Kansas, infant mortality rates are consistently higher than the national average. For black infants, rates are roughly three times greater than their white peers. For Kansas mothers on Medicaid, infant mortality rates are the worst.

What is one thing you can do to make a difference?
